My trip to Wales had mixed success...

The morning was hard going, with 40m difficult, and 20m impossible - my 10W was struggling against the noise floor.

Only 10 in the log in 2 hours from Llanvair Discoed Castle (CASHOTA GW-045, WCA GW-00104)

The afternoon, from Llanmelin Hill Fort (CASHOTA GW-046, WCA GW-00175), was much more successful, although 40m was completely unworkable (although I did try!).

Helped by the fact that my location was within Coombe Valley Woods (GWFF-024) the log flowed on 20m and 17m.

Thanks to everyone who worked me... and please look out tomorrow morning, from Odiham.

Logs for both will be uploaded to WCA eLog, eQSL and LoTW - plus WFFlog for the afternoon.

As part of a set of activations, I am planning to be active from SOTA G/SE-009 (Chanctonbury Ring, IO90TV, WAB TQ11) from for a couple of hours from approx 09:00utc.

Chanctonbury Ring is home to Chanctonbury Hill Fort, so is valid for CASHOTA and WCA once I get the references sorted :)

It is also within the South Downs National Park, and therefore valid for GFF-018.

I will be QRV on 2m and 40m, 20m and 17m. Cluster spots welcome.

Sorry, but due to too many callers [a nice situation, but havoc on schedules] on the earlier stages, I got way behind schedule, and something had to give - and sadly Chanctonbury Ring was the stop that was skipped.

I'll do this one another day.

WCA-I-12357 DCI- IM182
==========
Hi Castle Fans,
Next Saturday the 31st March during the morning I will operate from a new reference :
DCI-IM182 Torre Gibelli a Camporosso, WCA-I 12357.
Starting transmissions at 8.00 UTC frequency 7.120 KHz , later on 14.250 KHz +/- QRM .
The valley is quite large but the tower is located at the base of the mountain ; may be we could have some problems to listen each other . I am waiting for you ; be generous with spot on cluster.

Hello All!

Info from Nobi JA1JCF

Hello,
I am planning a trial activation of a Japanese castle this week.

The activity will be on Thursday, May 17, from 06:00 UTC through 09:00 UTC, from Hachigata Castle, Yorii, Saitama, WCA JA-00023. 15 meter band CW will be used mainly, but 17 or 12 meter CW may be used depending on conditions.
The call-sign will be JA1JCF/p.
The signals may be weak as my portable station will be running 50 watts with a loop or a vertical antenna.

The forecast for Thursday is cloudy, but the plan may be cancelled due to bad weather.

73,

Nobi, JA1JCF

- Dear friends!
At present in WCA E-Log were uploaded 250.000 QSO of expeditions from castles and fortresses of the world.
We achieved essential stage in award program development - the first award was issued with the help of WCA E-Log. Our congratulations and gratitude to author and manager of WCA E-Log Jiri Suchy OK5NN for his GREAT WORK.
Thanks a lot to all participants of expeditions.

Hello All!

On the 16th and 17th of June 2012 took place second days of ham radio activity from castles and fortresses - World Castles Weekend (WCW-2012).
More than 100 expeditions from 20 countries have participated in them. In the near future we'll begin sending WCW-2012 certificates for work with expeditions from castles and fortresses during these days.
Applications for WCW-2012 certificates please send to RN1CW (rn1cw@...). More information at WCA web-site - http://wcagroup.org
Thanks a lot for participation and support.
We hope to hear you in WCW-2013!

Hello all,

Spending a week in the beautiful Loire region I cannot skip the opportunity to activate nature parc Loire Anjou Touraine (FFF-049) as well as one of the many castles in this region.

I have picked castle Langeais as it is the nearest one and it is located within the nature parc. The bonus is that it has not been activated before.

Jean Pierre F6FNA has provided me with a new DFCF reference: 37-095 and Andrew with a new WCA reference: F-05272

Plan to be active tomorrow (6/9) from late afternoon into the early evening local time. Depending on conditions I will start on 10, 15 or 17 and will use 20 and probably 40 as well.

Hope to meet you all.

73,
Lars / PH0NO

Dear castle enthusiasts,

With a small gap in my schedule for today I expect to be able to activate
Slot Zuylen (PA-00114) between 12:00 - 14:00 CET.
Activity depends on finding a usable spot near the castle. If I can't find
any I might try another castle in the proximity (time permitting).

Let me use this opportunity to inform you that we have a new COTA-PA
website up and running to promote COTA in The Netherlands.
We hope to generate more activity in the near future. Have a look at
http://www.cotapa.org

Hope to talk to you soon.

Hi all,

A little disinformation for you I'm afraid. I have just created a hole in my schedule that allows me to activate something this afternoon. From where I am now this will most probably be a castle. I am aiming for Maarsbergen (PA-00110) that is inside PAFF-018.

I have not done any research yet so I might not be able to find an operating spot near enough to the castle. In that case there are a few other castles in the area. If they are not suitable I will head home.

Latest possible QSO is @ 17:00 UTC, so if you haven't heard me by that time you will not hear me today.

So.. sorry about the marginal information but look @ the cluster or check me on twitter (I will tweet my location or cancellation).

Dear all,

Participating in the "Happy Birthday" weekend, Bas PE4BAS is going to activate PA-00007 Menkemaborg tomorrow from 10-11 UTC. He plans to be active on 20m (maybe 10m if it's open) and will work QRP.

I hope to be able to head over to a castle on Sunday morning myself (depending on the weather amongst other things). Will send an update to this group if I succeed.

319. New castle this afternoon in PA

Yahoo group: wca_group
Date: 2013-01-22 10:16:28 UTC
From: Lars de Laat
Topic: 319 Message: 319

Dear castle hunters,

This afternoon I expect to be able to activate a castle here in PA.

As I am not familiar with the local conditions I have selected two candidates: PA-00130 (Kinkelenburg) or PA-00141 (Doddendael).

Start time depends on the time to find a good operating spot. Probably around 14:30 UTC. Will have to leave around 17:00 UTC.

Conditions on the higher bands do not look very promising so I will focus on 20m and 40m.

Hope to meet you all today.

Topic: 336 Message: 336

Dear all,

Tomorrow morning / early afternoon I expect to be able to activate PAFF-006 Loonse en Drunense Duinen. This national park has been activated once before but only has about 100 QSOs logged.

I found a spot on the map that is also close enough to a castle: PA-00042 (valid for WCA and COTA-PA). I am not sure if this spot is reachable, practical, etc. but I am going to try - the exact location will be on my QRZ page (tweet) and of course mentioned on the radio.

Aiming to activate from 9:00 am up till 12:30 UTC depending on band conditions and time to find a proper spot. Will be on 20m, probably on 40m and on higher bands if they are open.

Hope to meet you all.

389. PA castle activation tomorrow afternoon (May 31)

From: Lars de Laat
Topic: 389 Message: 389

Hi all,

Tomorrow afternoon (from around 13-16 UTC) I expect to be able to activate a castle here in PA.
I am aiming for the castle of Amerongen PA-00081 but I am not sure if I can set up a station close enough to the castle. My back-up plan is the nearby castle of Natewisch PA-00082.

If conditions are as terrible as they have been the last couple of days I will most likely focus on 20m and 40m. I will keep an eye on 6m just in case that opens up to PA.

Hope to meet you all!

**Notes: Silvino, IW6NZY, (wolves head) is sorry not to be with us
this time.
We are hosted in a very nice country house, on an hill top; but sorrily
it is quite away from the lake, so the DLI-I6-110 is not possible from
there.
We will see if it will be possible to change location for some hour or
have another station by the lake to activate that reference, too.
It will evtl announced by I5FLN on the Cluster. He helps me with that
from years, many thanks, Luciano!
If the WX will allow us, maybe we will also go on with this expedition
the next week. Let us hope so, at least.

Ciao,
I have planned my holidays in a big radio tour from a beautiful and
hospitable land that is OZ Danemark.
I will work from *OZFF, DEN, WCA, IOTA, DIA*; normaly 14.244 and 7.144
only SSB, possible 50.144 and 18.144.
Not internet connection, but OZ7AEI helper.
The call will be my danish *5Q2AE*, I am not member of EDR, not Qsl
needed, in autumn I send all first.
SWL send me a e-mail.
See: http://www.qrz.com/db/I2AE for map, program and other info.
I leave friday 27 from Italy and after 1400 km I hope sunday afternoon
to give my cq from OZFF-042.

Hi all,
well, the first expedition of ES4CASTLE was quite successful - during two hours we've made 174 QSOs. Most of all was CW on 20m.
This expedition has been a kind of tryout of facilities this new working position in the Northern Yard of Hermann Castle.
The next round could be during the Christmas Fair on December 14, 2013 from the same position. About bands, modes and time of operation I will inform you the week before expedition.

Thanks to all,

From: B. Isenbuegel
Topic: 565 Message: 565

Hello all together,

I will try to activate the Roemerkastel Saalburg / WCA DL-02836 / COTA HBN-123 .

I will try to activate it on the coming Thursday, 20.03.2014, in the time from
around 12:30 till about 15:30 UTC.

Call Sign for the activation will be: DO9EGL/p

I will be QRV on one of the following bands:
10m SSB (QRG: 28,551 +/- X)
15m SSB (QRG: 21,251 +/- X)
80m SSB (QRG: 3,731 +/- X)- if I get my HF-P1 antenna running

Sorry, no digi modes, my interface is broken at the moment and no other bands, as I'm limited by my license. 2m/70cm ist also possible.

The above QRGs are just my wish QRGs, maybe I will be on completly different QRGs. I will try to post my current QRGs on the S50CLX Cluster.

TRX will be a FT-817 with an AlexLoop and/or HF-P1. So QRP only from my side.

If you try to work an QSO with me, please be patient. I'm still working on my shortwave Operator skills. *hi* It's been a few years since I've been on the air.

I hope I haven't forget something. Maybe we hear us in 2 days on the bands.

vy 73 de
Bjoern / DO9EGL

P.S.: As a member of the local DARC Club F11 Bad Homburg, a QSO with me also counts for the Limes Diploma.

We are coming to invite you for a visit througout the link:
*http://www.nra.pt/activatin-cr500tb-in.html
<http://www.nra.pt/activatin-cr500tb-in.html>*

*CR500TB *is the call sign that is going to *celebrate the 500 years of Tower of Belém*, in Lisbon.
So on the *next April 18th* activating the Tower, NRA - (Portuguese Navy Hamradio Group) will do three in one.
Will sing five hundred years os Belém Tower;
Will celebrate the "International Day of Radioamateur"
and Will celebrate "Intenational day of Monuments and Sites"
About the monument we left here a short informative text which can be of some interest for the ones interested on this kind of subjects.

CELEBRATING THE 500 YEARS OF TOWER OF BELEM

The Tower of Belém was founded by Manuel I as an integral part of a innovative defense system for the Tagus Bar. It was built between 1514 and 1519 under the supervision of the military architect Francisco de Arruda.

The "modern" and innovative design of the Tower is due to an original combination of two types of structures: the traditional Gothic watchtower, and the bastion. Built in the river, away from the bank, the
Tower of
Belem was originally surrounded by water, working in conjunction with other fortresses along the coast and enlarging the range of crossed fire with the fortress of S. Sebastião da Caparica, on the opposite bank of the river. Itsstrategic importance is also due to the
essays on the use of new types of backfire loaded cannons and the experiences on shot ricochet, crucial technologies later transferred and adapted to the Portuguese caravels during the great era of the Portuguese Discoveries.

Five centuries later, the Tower of Belém is nowadays one of the greatest icons of the Portuguese history, culture
and identity and listed by UNESCO as a World Heritage Site.

From top Tower we hope to meet you on the air
Best Regards
NRA

Hello dear friend,

We invite You to take part in World Castles Weekend-2014 (WCW-2014) timed to the 5th anniversary of World Castles Award (WCA) program foundation.
It will take place on the 14th-15th of June 2014.

It’s a good possibility to work on the air from castles and fortresses, fulfil a conditions of various award programs and
increase your collection by beautiful QSL-cards.

We would be very much obliged to You if You will place information (banner, link) about WCW-2014 on Your website.
In one's turn we can place Your banner on WCA website.

We invite to collaboration hams, radioclubs and organizations in realization of WCW-2014.

Thank You.

Any questions and suggestions please send to Andrey RN1CW:

Hi all,

A last minute opportunity for a /P activity has popped up.

This afternoon I will go out and activate either Kasteel Middachten PA-00133 or De Geldersche Toren PA-00169.

Which one it will be, will depend on whether I can find an operating position within 1km from the castle. I will try PA-00133 first.

I will be on 20m and 40m and any higher band that seems open.

Hope to catch you all.

Saturday and Sunday (11/10/05)
with the call IQ3VE / P, call ARI Venice,
activate the castle I-11082 Torre Massimiliana from Sant'Erasmo Island
On SSB - RTTY - CW - PSK31
On air, there will be other stations from other references, they will use their own call / P.
I can not say now references, because transmit from islands,
and therefore depend on the ability to access the island itself.

Hi All,

with the call-sign IW5AB/mm & IZ5GST/mm

on May 11, 2014
will be activated SSB from the following references:

WAIL-TO021 LH-ITA160

I think in the late morning but I do not know the exact GMT,
everything will depend on sea conditions, the reference has at a
distance of more than 70 km of navigation.
I will be not able to use the cluster then I'll try on the frequencies

7177 and 14308 + / - 3Khz

After returning, @ about 18.00z with the call-sign IW5AB/p & IZ5GST/p
will be activated SSB & Digital the following references:

DCI-LI029 WCA-I05437 DAI-TC0468

Then, on May 12, 2014 @ around 08:00z

with the call-sign IW5AB/p & IZ5GST/P

will be activated SSB and Digital modes the following references:

DCI-LI027 WCA-I05435 DAI-TC0466
DCI-LI028 WCA-I05436 DAI-TC0467

and @ 13.00z also

Hi All,

with the call-sign IW5AB/mm & IZ5GST/mm

on May 11, 2014
will be activated SSB from the following references:

WAIL-TO021 LH-ITA160

I think in the late morning but I do not know the exact GMT,
everything will depend on sea conditions, the reference has at a
distance of more than 70 km of navigation.
I will be not able to use the cluster then I'll try on the frequencies

7177 and 14308 + / - 3Khz

After returning, @ about 18.00z with the call-sign IW5AB/p & IZ5GST/p
will be activated SSB & Digital the following references:

DCI-LI029 WCA-I05437 DAI-TC0468

Then, on May 12, 2014 @ around 08:00z

with the call-sign IW5AB/p & IZ5GST/p

will be activated SSB and Digital modes the following references:

DCI-LI027 WCA-I05435 DAI-TC0466
DCI-LI028 WCA-I05436 DAI-TC0467

all the contacts will be also valid for:

WAIL-TO022 LH-ITA288

then @ 13.00z also

DCI-LI071 WCA-I05479

Pile-Up & weak stations reports are very welcome!

Hi Steve G0TYS,
Well done: OT or not, I will forward this message to all Friends and newssites I know, and I hope your petition will have success.
But honestly, it is very hard: china-junk market has already invaded the world, and non ham users will favour to spent few dollars not to have cables all around, in spite of hams and rules. This is lowpricejunkgalore force , sorrily.
But to try is best than just wait that all HF is forever over.
Thanks, de Augusto HB9TZA - I2JJR

641. WCW-2014 activation of YU-00030

Yahoo group: wca_group
Date: 2014-06-12 20:56:46 UTC
From: YT9TP Pedja
Topic: 641 Message: 641

I have plan to participate in WCW 2014, by activating YU-00030, Solotnik fortress near Uzice, Serbia. I think that would be the first activation of this location ever.

Primary band should be 14 Mhz, but if I manage to set antennas, might be active on other bands too.

I will use YT9TP/P call sign. QSL via bureau or electronic.

Hello All!

Some info about sponsored WCA flag.

It will be issued only this year to all activators of this year WCW.
Flag will be WCA flag so that can be used on any activation, not just
for WCW. Size of flag is cca. 45x32cm.

Rules for getting sponsored WCA flag:

1.) Everyone who wants to get a flag has to ask for WCW diploma

2.) Request for flag must be send with WCW diploma request and must
include address where flag will be send.

3.) If there are more then one operator in group activating castle,
let's say they working under club call sign, we need list of all
licenced operators on activation and only one address and all flags will
be send to this address for all operators.

Flag and postage is sponsored by S5 WCA team.

This rules has to be put on WCA WCW page plus on WCA mailing list.

Bad weather messed our plans as we are now equipped for rainy conditions.

However, we do not give up. We will change location. Instead of YU-00030
Solotnik we will activate YU-00023 (Stari grad), as we can improvise
some rain shelter there.

Hallo COTA friends,

Tomorrow the 23.06.2014 from aprox. 12:00 UTC i will do a QRP (5W)
activation of the castle *"Burg Reifenberg**"*
with the WCA Nr: *DL-00104* and COTA Nr.: *HBN-029*

I will try to start the activation around the 40m COTA *QRG: 7.131kHz*
but will change depending on band conditions.
As the top part of the 40m band is more quiet usualy, keep looking for
me in the upper part of the band.

I will activate 40m SSB only!

Best regards and hope for a lot of contacts / 73 de DG1FBN

Hello all together,
I would like to test my equipment at the following location. In this short case I have only the opportunity
to use the 2m Band ... that means that is is more or less a local conversation, I guess.
I will give it a try with 100 Watt.

Activations on 15m will follow after my vacation in a few weeks.

Date: Friday, July 18th, 2014
WCA number: DL-00337
National number: NRB-010
Prefix: DL
Castle name: DORENBURG
Location: GREFRATH, GERMANY

Call: DO2FU/p
Time: 07:00 UTC to 08:30 UTC
Bands: 2m, 144.350 +/-

Modes: SSB Phone
Operators: DO2FU, Frank

QSL cards via bureau are possible, too.

694. Sugestion> expanding castle data

Yahoo group: wca_group
Date: 2014-09-02 15:54:47 UTC
From: yt9tp@...
Topic: 694 Message: 694

I would like to suggest that castle data is expanded with additional information:

- Geographic coordinates (latittude and longitude)

Reason: it would be good to have exact coordinates for activators to be able to find location if they are not familiar with area, especially if they are foreigners. Informaction would also server pursposeof getting peopel to know about castles starting with ability to find them on a map.

- DXCC entity code

Castles are now grouped by common country prefix. In some cases prefix does not uniquely relate to exact DXCC entity. Example: UA prefix covers two DXCC entities European Russia and Asian Russia. As castle physicaly can belong only to one DXCC entity, it would be good to have that exact information.

Hello Pedja!

Thank you for discussion.

On the first point, there was an idea to make in the guugl of planets.
But I have no so much time.

On the second.
It wasn't for us essentially, there were many ideas, but stopped on a
prefix. There are some countries.

CT - Portugal.
I - Italy.
UA - Russia.

There is no need to make any tools, just expand data so we can have
additional information.

Prefix data is quite confusing. Other than not uniquely show DXCC
country it often contains data that seems to be actual call sign not
prefix, and some even contain multiple "prefixes".

Adding DXCC info for each location would be really helpful, as that
would allow searching data by DXCC country.

If I can help, I can spend some time and effort dealing with this issue.

718. Early Morning Castle Activation

Yahoo group: wca_group
Date: 2014-10-10 16:17:33 UTC
From: DF3MC@t-online.de
Topic: 718 Message: 718

Gentlemen (and ladies),

I plan to activate Veste Schaumburg, WCA DL-04427 on Saturday, Oct . 11.

This is the ruin of a high-altitude castle near Garmisch-Partenkirchen in the German Alps. The castle was built in the 11th century, in the 15th century it was finally abandoned and destroyed.
It can only be reached by foot, all equipment has to be carried. Therefore it will be a qrp-activation. The pay respect to the special character of this location, it will be an early morning activity, beginning at local sunrise.

I am looking forward to many calls:
Date: Oct. 11, 2014
Time: starting 05:29 UTC as long as the batteries last ...
QRG: 7.031 - CW, 7.131 - SSB, 10.121 - CW, 14.031 - CW, 145.500 – FM

Hello All!

- On January, 14th will be six years sharp since the date of World Castles Award Program foundation.
In connection with this event on January, 17th and 18th, will take place activity radiohams from castles and fortresses of the world - WCA Happy Birth Day (WCA HBD).
At present we have support from radiohams of some countries who will be active from castles and fortresses their own countries during these days.

751. Awards HBFF_H now by the WWFF Log Search , too !

*Hello to all the Friends of WWFF and the HBFFAwards!

Let me announce here, on behalf of the SSFG-GSRC **Staff, that your
stand on our Swiss Parks**Award **, HBFF-H for hunters (and HBFF-A for
activators shortly),
can be**now**controlled, and the award itself requested and obtained,
directly by the pages of WWFF Log Search, created by Andrew, exM6ADB.
The site is _/http://logsearch.wwff.co/index.php/_// .
You can subscribe, or even just look with your Callsign your position in
the standings for ALL the national Awards that are part of WWFF.
And now even for the HBFF-H , for Hunters, as perour Rules.
I invite you to lppk there and to ask for your Awards.

Warning: they canonly be requested personally by the Ops who have
achieved them, of course, and not by others!

The search pages may appear at first complex; if you have some doubts,
just navigate and explore them.
Try each option: once you get the hang of it, you will find the Log
Search comfortable and useful.

In case of doubts or problems for the HBFF, I am and all we are
willingly available, **write to the address of the management:
/staff@...-gsrc.ch/
It is convenient, and the message automatically goes to whom it concerns.

See you soon on the air from some reference,

In der Zeit vom 02.05.2015 – 08.05.2015 wird Peter DL2RPS von der Insel Praslin (Seychellen)unter dem Call S79RPS zu hören sein.

Vergeben wird er bei seiner Aktivität IOTA AF-024 und im Rahmen WFF, S7FF-04 ANSE National Park.

Es wird eine schöne Foto-QSL-Karte erstellt und nach QSL-Eingang bestätigt. QSL-Info siehe qrz.com /S79RPS oder DL2RPS

Um jedem die Möglichkeit zu geben, dass einmalige Call S79RPS arbeiten zu können, wird es pro Call egal auf welchem Band nur eine Verbindung geben. Mehrfach QSO’s führen zur Löschung aus dem Log.

*Hi dear Swiss Castles and World Castles Friends!
Meteo allowing him, our Friend Ron will be in the town of THUN (BE).
He plans to activate many Castle References: ALL ARE NEW ONES!
One each time, he will do the most possible of these, as follows:
*

* *Date : Today, September 2, 2015*
* *Time : On the evening*
* *Callsign : HB9/DG2RON/P *
* *References: DCS-BE059, BE060, BE061, BE062, BE063, and BE064*
* *WCA- Refs : WCA-HB-00102, 103, 104, 105, 106, and 107*
* *Activation : One Reference DCS+WCA for 50 + qso, then the next Ref.*
* *Bands : 40m and up*

*The order of the References Activ. may not be as announced; anyway,
these are all Thun refs.
We wish him to be able to activate all , it will be an hard job. But Ron
is a good Op and sure he'll do a good job.
***On the next days, he'll be also again on the air from some other HBFF
Refs ... ***Look for announces .
**Have fun hunting him, and have the patience to wait for the next
reference being QRX, so it will be easier for him.
And for us hunters all.
Help by fair operation, and by spotting on ***DXsummit Cluster, will be
really appreciated.

Dear friends,

on June, 01st, i signed in wca-group for the first time and I got an email
to my private email-adress Gerhard.sedlak@...
<mailto:Gerhard.sedlak@...> : "Welcome to the wca_group group at
Yahoo! Groups".
And on June, 1st, i created my first wca-Alert.

Since this day´s i wasn´t active in the Group.

Today, i want to change my email-adress in dl4to@...
<mailto:dl4to@...> , because this adress will be better for alerts
in the futures, instead of my private email.

So, can I get a new "reactivation" or is a new sign in necessary?

Thank´s in advance and looking forward to your Response!

Hello Gerhard, easiest way would be to send from your new mail address an empty mail to:

then you should get a confirmation and will be subscribed with new mail-address.

Hallo Karl!

Leider kein cw qso unter COTA gefahren.
Habe mir einen cw-Trx gebaut, den ich unter portablen Bedingungen mal
testen wollte.
Karl DH5EAM hatte sich ja auch angemeldet.
Um den Betrieb mal kennen zu lernen bin ich nach Schloss Rheydt gefahren.
Mein Trx funktionierte gut. QSO nach Berlin und Italien klappten gut.
Warscheinlich sind die meisten OM's bei COTA in SSB unterwegs.
Ich mache lieber cw.
Danke für deine Antwort.

Ich fahre fast 100 % in CW. Das dauert 1-2 Stunden und dann ist mein Ziel von mindestens 50 QSO geschafft.
Da ich SSB nicht gern mache, habe ich ein Mikrofon nur für “Notfälle” dabei.

Hello guys,

I’m new to the group and will be a “virgin” activator this coming May Day.

I am planning to activate the Castle Ruins Homburg,

- WCA DL-03254
- FBN-637

As far as I have ascertained, this will be a first time activation for this castle.

I am an old-fashion old man and still appreciate knowing the name and QTH of each station I contact. "Wham-Bam-Thank You Mam" is for the younger generation(s) - not for me.

My call sign is DJ0IP, but I will sign with DM5P/p,
the call sign of our local chapter of the German Amateur Radio Club (DARC) here in Main-Spessart.

I’ll be running off of batteries and think I have enough power for about 8 hours of operation.
I will be QRV approximately 0900 GMT. And I will take a lunch break!
Primary focus will be 40 and 20m; possibly 30m.

QUESTION TO EVERYBODY: is it worth while to call CQ in CW or is it better to only work SSB?

I will be running just 50w but have a fairly good antenna.
I look forward to working many of you.

Here is a picture of the Castle Ruins I will activate:

Hallo together !

So the rain does stop we plan the following activity:

Milesovka OK/US-014 in the N.R. OKFF-0100.
So we can give you both entries in same time.

On top or nearby this location we hope to find a good place for building antennas.

You can found DL1JIF in some HF SSB, may be VHF FM/SSB with IC-706.

I will be mostly on 7024 in CW with IC7000 and GP.
May be later on 30/20m.

After finishing this first act we will be able to activate WCA OK-01153 Milesov Zamek.
Here we will work same QRG 40m CW may be some SSB.

Pse keep fingers crossed to have good condx and good wx.

73
hope to cu on the bands

*Ciao ! **E' stata aggiunta, su proposta di Cecco HB9AFZ, la nuova bella referenza **
DCS-TI080 (WCA-HB00915) Forti di Fieudo , Airolo .
**Essa si trova tra l'altro ai bordi di una riserva naturale, probabile prossima referenza HBFF / WWFF, in una bellissima posizione sulla strada del passo del San Gottardo, salendo da Airolo, da dove si domina la valle.
Ciao, 73 dal Team SSFG-.GSRC,
Augusto HB9TZA
Su Google Earth : lat 46.534566? lon 8.575367?

Hello, a new DCS-Reference has been added to our Castles List.
Proposed by HB9AFZ Francesco (Cecco) , we have added DCS-TI080 (also WCA-HB00915) Forts of Fieudo by Airolo .
This reference lies in a beautiful position, near a Natural Reserve, next maybe also a Reference for HBFF / WWFF, on the old route to St Gotthard Pass from Airolo, with a beautiful landscape on the valley (also strategical value, these times ...)

Augusto HB9TZA

Hello all,

we DL7LM/p Hans and DL8HOT also Hans will activate the "castle Taucha" (WCA DL-05025, COTA Germany: SAX-304) at the 01th of May from 08:00 to 15:00 UTC in SSB.on 80m, 40m and 20m in SSB.

This castle was never been on air before.The castle-nummer is a new one (DL7LM get the new number in middle of April 2017 from DJ5AM OM Steffen).

For all QSO's with us a special QSL-card via the DARC-office is 100% shure.

We hope to hear you on the bands!

Liebe OMs,

hier schreibt Euch Carsten, DF2DD aus Dortmund.

Heute wende ich mich in einer COTA-Angelegenheit an Euch.

Ich bin selbst COTA-Mitlied und Koordinator für den Distrikt L.

Bei der BNetzA habe ich das Rufzeichen DA0COTA beantragt; leider wurde mir das Rufzeichen nicht erteilt, da man bei der BNetza die Unterschrift von Manfred, DF6EX als Leiter unserer Interessensgemeinschaft nicht akzeptiert hat (vgl. Anhang).

Um die Erteilung zu bekommen, ist es notwendig, 4 weitere Mitglieder der Gruppe zu benennen und diesen Nachweis mit der jeweiligen Unterschrift der BNetzA vorzulegen.

Ich benötige daher Eure Erklärung MIT Unterschrift, dass ihr Mitglied der Vereinigung COTA seid und bitte Euch, mir beiliegendes PDF auszufüllen und unterschrieben per eMail an mich zurückzuschicken (ggf. auch als Foto). Da ich das Call zum 01.07.2017 haben möchte, wäre es toll, wenn Ihr schnell reagiert und Eure Antwort an

c.hausdorf@...

schickt

Wenn ihr weitere Mitglieder kennt, die nicht im Verteiler sind, leitet die Mail bitte an diejenigen OMs weiter.

Ich hoffe auf Eure Unterstützung und sage an dieser Stelle schon einmal vielen Dank.

Heallo Ralf,

I just read your mail (a little late) - Sorry!
Thanks for the best wishes - they were very helpful ;-)
First one of 2 antennas broke, then my K3 refused to send a signal.
Hopefully nothing big, but lost 1,5 hour.
The battery -thanks to your wish - didn't make any problem !! and we
made the required number of QSO despite the propagation;
Seems you're not in the log - we'll do that another time !!

Hallo Ralf,

Habe Deine Mail gerade erst gesehen - Sorry!
Danke für die guten Wünsche - die waren auch nötig ;-)
Zuerst gibt eine Antenne den Geist auf, dann streikt mein K3.
Zum Glück alles Kleinigkeiten, aber 1 1/2 Stunden hat's gekostet.
Die Batterie hingegen hat keinerlei Probleme gemacht (wohl auch wegen Deiner Intervention)
!! und die erforderliche Anzahl QSO haben wir trotz der widrigen Propagation erreicht.
Leider bist Du anscheinend nicht im Log - aber das holen wir nach.

Hello castle hunters,

this is Alfred, DJ6PC.
From time to time I am going to activate
WCA DL-01996, WSB-051 Castle Eggeringhausen. It has *never been activated
before*.

I live near the castle, so I can activate it from my home QTH. See the
attached map. Whenever you hear me (CW only) and need this castle, you can
give me a call.
Skeds are also possible.

Hello Castle hunters,

Tomorrow I will try to activate

LG-022 ON-00199 4850 Montzen (Plombières) Château de Broich

Loc: 50.70508, 5.941689

I'll be active from around 7h00 UTC 'til end of batteries on 40 and 20 meters as OS5K/P.

Please have an eye on the cluster.

The weather announced is rather heavy with rain and wind so it's possible that I can't make it happen.

Hope to meet you tomorrow.

Guten Abend OM Jonas

Wir haben vor auf den Harzrelais 439.325 MHz sowie 438.550 Mhz und
145.625 Mhz und was dann noch erreichbar ist. Standart QRG vom OV
145.575 MHz simplex

2 m SSB kann ich heute noch nicht sagen sorry....

Auf 40 und 80 mal über die Bänder schleichen da haben wir noch nichts
fetgelegt da wir noch in der Vorbereitungsphase sind OK.

OK Peter, alles klar ich werde wohl höchstwahrscheinlich sowie nicht über SSB bzw KW Betrieb machen können. Aber auf UKW könnte es klappen. Nunja ich komme aus dem Raum Stuttgart bzw. Esslingen /Neckar. Da wird es schwierig, auf 145.625 mache ich Heidelberg auf, auf der selben Frequenz wenn ich weiter südlicher Fahre mache ich den Wasservogel auf (Valuga) im Bodenseekreis. Also wird wohl 145.575 Mhz. Am besten gehen, oder eben auf 70cm 438.550 und 439.325. Dort habe ich keine Doppelbelegungen in der Umgebung hier drauf.
Wie du weisst ist es leider so, dass es immer mehr Relais gibt aber immer weniger OMs...
Könnte sein, dass wir uns dann über EchoLink verabreden müssen. Ich schaue gleich mal welcher dieser Repeater ein Zugang hat.
Viele Grüße, 73

Hello,

it's intended to activate WCA DL-05077 / RPB-419 (Ruchheimer Schlösschen):

Saturday 04th November 2017, 10:00 UTC (estimated start time +/-)

40m, 7135 kHZ +/- (20 m possible later)

The exact beginning and qrg of the activation will be announced just in time via selfspotting in the dxwatch-com-cluster.

This will be the first regular activation. A very first activation to explore the location and a few test qsos was Sept 04th 2017.

Hallo Thomas,

danke für die Ankündigung Deiner COTA-Aktivitäten. Das hat ja mit uns auf 80m immer gut geklappt. Aber nun bin ich ganz traurig. Seit 40 Jahren bin ich dienstags zum Skatabend und somit ab 18.30 Uhr nicht mehr zu Hause. Bist Du auch an anderen Tagen in Sachen COTA qrv? Zu einer etwas früheren Zeit wirst Du wohl auch nicht können, wenn ich das Foto auf Deiner QSL-Karte betrachte, dann wirst Du wohl noch zur Gruppe der Berufstätigen gehören. Das habe ich nun schon 10 Jahre hinter mir.
Danke übrigens für Deine QSL-Karten, es sind jetzt alle QSOs durch Karte bestätigt, aber Eintrag in der COTA-Datenbank würde künftig auch reichen.
Hoffe awdh, 73, 11 Lutz DL8MLD

P.S. Bitte trotzdem weiter Vorankündigung schicken, manchmal fällt der Skatabend aus !!

My journey takes me on Sunday (04.02.18) to the beautiful castle Lichtenstein on the Swabian Alb. Due to its Gothic construction on a rocky outcrop this castle seems almost magical and is beautiful! I will be QRV from about 10 o'clock to 2m and 70cm.

On the 145,425 and on the 145,400 for the P 51 round.

At 438,300 and all major relays in the area. I'm looking forward to seeing you on the band.

Please hunt out a spot for me!

The local radio club of Ahrensburg in the north of Hamburg and the YL group of the Hamburg district will activate the own fortress of Ahrensburg on the 10th and 11th Feb, 2018 with two HF stations in phone, CW and FT-8. We use our special callsign DL0DFF with the entities WCA DL-03925 and COTA SHB-001. The fortress is a landmark of Schleswig-Holstein, the country between the Baltic and North Sea in the top of Germany. Every contact will be confirmed with a special QSL-card via the DARC buro. Log upload to the WCA/COTA Server is obviously.
Visit http://dl0dff.de <http://dl0dff.de/> and http://e09.de <http://e09.de/> for detail informations and the used equipment. We hope to see you on the bands - guests are welcome.

Good early morning !

I will start my first activation of DL-05130 little bit earlier.
05:30 Z I think to be qrv.
The ruins of this rob caslte are very old and on the river of Zschopau.
So hope to have a good signal on the bands.
The reference number is 2 days old.
So it will be a new one for you all.

I thought that WCA includes only object that are fortified. Lately I noticed number of activations from castles that are not fortified (checked with activators).

Does that mean I had wrong impression and non fortified objects are also allowed to be included in WCA program?

To my knowledge, it is not about the fortified but the age.

Decide is the national listing. You can see that at the respective national organizations

I guess definition in program rules are quite broad:

2. The Purpose of the program is joining of efforts of radiohams in different countries for activation and popularization historical objects relating to fortification (fortresses, castles, forts e.t.c) and attract attention to historical and architectural heritage as well as visiting extant historical monuments all over the world .

3. Fortifications are military constructions and buildings designed for defense in warfare and military bases. Humans have constructed defensive works for many thousands of years, in a variety of increasingly complex designs.

The term is derived from the Latin fortis (“strong”) and facere (“to make”).

Fortification is usually divided into two branches, namely permanent fortification and field fortification. Permanent fortifications are erected at leisure, with all the resources that a state can supply of constructive and mechanical skill, and are built of enduring materials. Field fortifications are extemporized by troops in the field, perhaps assisted by such local labor and tools as may be procurable and with materials that do not require much preparation, such as earth, brushwood and light timber, or sandbags.

4. Contacts with objects of permanent fortification such as castles, fortresses, forts, fortified areas (including their parts like gate, walls, towers etc) having obviously expressed signs of preservation or anew restored are valid for WCA.

Contacts with anew restored objects of field fortification such as stockaded towns, fortified ancient settlement etc are valid too.

> Decide is the national listing. You can see that at the respective national organizations

Exactly.

So far we thought only fortified objects are eligible to our national WCA list. If that is not the case, but other objects of historical value are also allowed, we have potential of thousands of new objects to be included on the list. That is why I asked for clarification.

I guess definition in program rules are quite broad:

2. The Purpose of the program is joining of efforts of radiohams in different countries for activation and popularization historical objects relating to fortification (fortresses, castles, forts e.t.c) and attract attention to historical and architectural heritage as well as visiting extant historical monuments all over the world .

3. Fortifications are military constructions and buildings designed for defense in warfare and military bases. Humans have constructed defensive works for many thousands of years, in a variety of increasingly complex designs.

The term is derived from the Latin fortis (“strong”) and facere (“to make”).

Fortification is usually divided into two branches, namely permanent fortification and field fortification. Permanent fortifications are erected at leisure, with all the resources that a state can supply of constructive and mechanical skill, and are built of enduring materials. Field fortifications are extemporized by troops in the field, perhaps assisted by such local labor and tools as may be procurable and with materials that do not require much preparation, such as earth, brushwood and light timber, or sandbags.

Is there some official WCA document that defines what exactly may be included in WCA program?

I quoted in my last reply what i found on wca site. Is there some other document that is more specific?

very interesting activations you have scheduled for the coming *Castle Weekend* :-).

Just two questions concerning your *FM operation*:

You wrote you will use relay 2m/70cm.

Would it be possible to complete the *callsigns/frequencies* of the relays?

And would it be possible to contact you via the relays also using *echolink*?

Yes, but of course we are talking from „castles“ as the name of the program states.

So the main-target should be to have castles in the listing.

I don´t think that it ever was intended to have for each fence or whatever a WCA-number.

Hi, here's a long-term announcement.

As part of a field day from 20 to 22 July in Sauerland, I plan the activation of numerous castles.

How many will eventually become depends on the conditions and your participation.

The sooner you report, the faster I can get to the next castle.

Planned are 9 castles in 3 days with 4 activations.

By active participation it could be added still 3 more activations and castles.

I will calling with DK0HN and DO3GE on 10, 15 and 80m.

Please watching Cluster

1626. Aus DA0COTA wird DK0WCA

Hallo zusammen,

erst einmal vielen für Euren Support bei dem Versuch DA0COTA zu verlängern.

Ich habe ca. 10 von euch unterschriebene Erklärungen bekommen. DANKE dafür!

Leider hat die BNetzA meinen Antrag abgelehnt.

Klubrufzeichen mit 4 - 7 stelligem Suffix sind nicht verlängerbar sind
und bis zu einem Jahr befristet.

Die allgemein gültigen Regeln für die Zuteilung von
Amateurfunkrufzeichen finden sich in der Amtsblatt- Vfg Nr. 12/2005
geändert durch Vfg Nr. 34/2005.

Demzufolge können bei besonderen allgemeinen Anlässen entsprechend der
Tabelle in Nr. 2 der Verfügung auch Klubstationsrufzeichen befristet
zugeteilt werden, die anstelle des 1-buchstabigen Suffixes einen aus 4-
bis 7 Zeichen
bestehenden Suffix haben. Die Auslegung des Begriffs "besondere
allgemeine Anlässe" wurde in den letzten Jahren sehr großzügig
gehandhabt, was einen inflationären Anstieg dieser Rufzeichenzuteilungen
zur Folge hatte.

Zwischenzeitlich wird, auch nach Rücksprache mit Vertretern des Rundes
Tisches Amateurfunk (RTA), dieser Begriff enger gefasst. So werden
Klubstationsrufzeichen mit 4-7-stelligem Suffix tatsächlich nur noch
beim Vorliegen besonderer Anlässe, zum Beispiel Jahrestage oder Jubiläen
von Personen oder Ereignissen mit einem Bezug zum Amateurfunkdienst
zugeteilt. Die reine Teilnahme an einem sich jährlich wiederholendem
Ereignis (z.B. Kontestbetrieb) ist nicht als besonderer Anlass
anzusehen, ebenso wenig wie der Name einer Amateurfunkvereinigung.

Daher war eine Verlängerung für DA0COTA nicht möglich.

Ich habe aber DK0WCA (in Anlehnung an die WCA-Nummern) auf mich
registrieren lassen. In der aktuellen Rufzeichenliste bin ich bereits
als Verantwortlicher eingetragen.

Ich freue mich auf viele neue QSOs unter dem Call DK0WCA ... dieses Call
ist übrigens unbefristet gültig.

From the 23th of July until the 1st of August I will be QRV from the Island Langeoog. This is IOTA EU-047 and DLFF-0010.

Station will be:

1. AlexLoop antenna
2. FT-891
3. Power Supply 12/7Ah

I will also use my special call DK0WCA (Activity station for Castles on the air; unfortunatly no Castle on the Island).

Hope to hear you one or the other on the bands. Pse have a look in the cluster.
